Attn: Mr. D. R. McArdle, Operations Superintendent

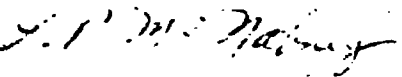

Mr. Dan:

In answer to your letters dated May 5, 1980 and July 28, 1980 concerning the United States Environmental Protection Agency updating your dump sites, the following is the information you require.

To our knowledge, there is no hazardous material in our spent foundry sand that you haul from our East Chicago plant. We have been contacted directly by the United States Environmental Protection Agency and our response will be coordinated through Mr. William Huelson of the American Foundrymen's Society. A copy of the information sent to the U.S. Environmental Protection Agency will be furnished to you.

We trust this information is sufficient for your requirements.

Very truly yours,

Leland P. McNabney,
Purchasing Manager
